OBJECTIVE

Motivated and detail-oriented Data and Business Analytics Intern with hands-on experience in analyzing datasets, creating dashboards, and building responsive web interfaces. Skilled in Power BI, SQL, Python, Excel, HTML, CSS, and JavaScript. Seeking a full-time opportunity to apply both analytical and technical skills in driving business insights, digital growth, and process improvement.

PROFESSIONAL EXPERIENCE

ICT Academy of Kerala (ICTAK), Technopark, Trivandrum

Data Science and Analytics Intern

July 2025 – Present

- Performed data collection, cleaning, and reporting using Excel and Google Sheets.
 - Assisted in data visualization and dashboard creation using Power BI.
 - Applied Python for data preprocessing and simple analytics in Google Colab.
 - Collaborated in team-based analytics projects focusing on business insights and visualization
-

PROJECTS

- 1. E-Commerce Website with Admin Panel** – PHP, MySQL, JavaScript
Developed a full-stack e-commerce system featuring a product catalog, shopping cart, checkout page, and admin panel. Integrated role-based control for product, order, and user management. <https://github.com/FIROZ-N/NextGen-Store>
 - 2. Mobile Sales Dashboard (Power BI)** – Power BI, Excel
Built a business analytics dashboard visualizing phone sales, revenue, and profit trends. Included interactive KPIs, filters, and drill-down analysis to support decision-making.
 - 3. Netflix Clone** – HTML, CSS
Designed a front-end Netflix clone using only HTML and CSS. Created a dark-themed, responsive layout with movie thumbnails, category sections, and hover effects.
<https://netflix-cloneee.netlify.app/>
 - 4. Restaurant Website** – HTML, CSS, JavaScript
Developed a responsive restaurant website that allows users to browse menus and rate dishes. Focused on modern UI/UX design and smooth interactivity.
